IT TRIES THE RISIBLES.

There is nothing more farcical than the *Holomua's* claim that "England still recognizes and officially knows Queen Liliuokalani." In point of fact England does nothing of the kind. The British Minister has long since recognized the Provisional Government and the commanders of British men-of-war have paid official calls to President Dole. No question is known to have been raised in the London Foreign Office as to the legal status of the powers that be. The report that Queen Victoria was polite enough in her evasive reply to Mrs. Dominis' Macedonian cry for help—a cry which that alleged promise of American restoration did not keep her from uttering—to address her as "Queen Liliuokalani," is a very slight thing upon which to base a claim of governmental favor. As a matter of private courtesy the title of "Queen," like that of General, Judge or Honorable is conferred in correspondence and introductions after the owner has ceased to hold office. Its use by the figure-head of the British Government is meaningless in a political sense and has been applied by Victoria to several ex-Sovereigns besides Liliuokalani, the ex-Empress Eugenie among the rest. If Mrs. Dominis really imagines that she has been recognized by Great Britain because Queen Victoria did not choose to snub her, she has reached a point where the services of an expert in the various forms of acute and harmless mania ought to be called in. He would probably advise her not to enfeeble her mind any further by reading the *Holomua*.

WE PRINT THE NEWS.

The STAR supplied its growing army of readers with the only complete summary of Eastern and Foreign news which appeared in yesterday's Honolulu press. It repeats the achievement to-day with a full transcript of all the important and interesting dispatches which were printed in the *Examiner* and *Call* of June 14th, and with a full epitome of the minor news of both hemispheres. Facilities to promptly meet, in fullest measure, the local demand for Associated Press reports are very nearly confined, in the afternoon field, to this journal—a fact which the reading public of all shades of politics is beginning to appreciate, and respond to with liberal subscriptions.

To make room for the usual commentary many of to-day's telegrams, some of which are highly readable and important, have been removed from their usual position on this page and printed on the supplement.

NOW FULLY RECOGNIZED.

In receiving Mr. Thurston as Hawaiian Minister to the United States, President Cleveland completes the formal acts of recognition which the Provisional Government has been the object of at the hands of the American executive. After this, it will take a very sanguine or credulous nature indeed to predict or to entertain the prophecy of the return of the ex-Queen to power at the instance of the United States. Such a postulate has always been absurd, but under present circumstances it becomes a burlesque on reason. If the Royalists intend to wait for restoration until the United States shall declare war in their behalf on the friendly Government of Hawaii, of whose independence it has shown such respect, they are to be congratulated upon their opportunities for leisure.

It is recalled that Charles Nordhoff appeared before a Committee of Congress several years ago to oppose the reciprocity treaty. During his remarks he said that there were only eight or ten plantations on the Hawaiian group, and the nature of the soil and the configuration of the land were such that there could never be any more. Knowing Nordhoff as it did, the Committee attached no weight to his evidence, and went ahead with the treaty in the benefits of which just one hundred Hawaiian sugar plantations soon came to share. The reminiscence is an interesting one and underscores the length of time covered by Nordhoff's mendacious hostility to these Islands—a hostility which dates

we are told, to the critical reception here of the statements of his old time Hawaiian book.

It is upon such rainbow soap as this that the hopes of the bubble party are fed.

We hope that he (Mr. Nordhoff) some day will visit us again, and we feel assured that his statements and prophecies in regard to Hawaii will have been justified in that he will find our little country prosperous and progressive, with a happy and contented people under the rule of an independent monarch, enjoying the closest and powerful friendship of the United States of America.

This seems true and probable enough to have come from Nordhoff himself.

There is much that is satisfying in the appointment of Charles L. Carter, Esq., as District Magistrate. He is a man of legal ability and impartial judgment; and while politics do not enter into his judicial duties, the fact that he is a reliable friend of the Government counts in the sum of local appreciation. It would be a pleasure to know that Judge Carter had been made the permanent occupant of the District bench.

American marines landed in Nicaragua! And by order of President Cleveland! In view of the "traditional policy" of which the President spoke to Minister Thurston, this becomes very touching. And then to think that Mr. Cleveland's blue jackets did not even stop to hold a plebiscite among the Nicaraguan natives! Shade of "American devotion to popular rights," but that was tough!

On the principle that drowning men catch at straws, the R. yalists are grasping for the hidden meaning in President Cleveland's Delphic oracle about popular rights. If they e j y that sort of exercise let them try their hand on the cryptogramic text of the Nicaragua invasion.

If the Government does not intend to protect its musicians from Royalist insult and interference it would be well to disband them.

BLUECOATS ON SHORE.

YANKEE MARINES LAND IN NICARAGUA.

Arms and Supplies Enough to Indicate That Their Stay May be a Long One.

MANAGUA (Nicaragua), June 10.—The landing of marines and sailors from the American warship *Atlanta*, who have established a camp near the village of Santa Fe, close to the canal, has caused the greatest excitement here, even exceeding that which prevailed during the late revolution or upon the overthrow of Saca.

The agitation has extended to all classes, who fear the United States is taking possession of the country, and the passive attitude of the Government is severely commented upon and even called treacherous.

The explanation of American officials that they merely landed their forces to protect canal property and works was considered a subterfuge, for such warlike preparations as the landing of troops with arms, placing artillery and Hotchkiss guns in position, preparing the place to withstand a siege, bringing ashore a large quantity of supplies and camp equipment, seems to indicate a long stay.

Crowds from the city went to Santa Fe to see "Los Americanitos," as the invaders are called, and it is feared that unless some precautions are taken or satisfactory explanation given serious trouble may result. The rabble which composes the greater part of the crowd is fearfully enraged, and considers the act as a hostile invasion. Incited by conservatives, principally by the clergy, these people say the new government has sold the country to the Americans, that this is only the first step towards taking possession, and that a number of other American warships with reinforcements aboard are on the way.

There is a report here that the rest of the Central American Governments will protest against this action of the United States. A late rumor is that the United States troops will be withdrawn. Activity has been noticed in the camp as if some move was contemplated. The United States Minister has gone to Santa Fe.

AMERICAN INTERESTS.

Belief in Mexico That They Will Be Protected.

CITY OF MEXICO, June 10.—The *Mexican Financier* says: "The downfall of the Saca government in Nicaragua appears to have behind it an intrigue of foreign interests hostile to the continuance of American control in the Nicaragua ship canal, an enterprise purely American in its inception and sustained entirely by American capital."

"When the canal was begun little attention was paid to it, but now that it is likely to be successful, European governments wish to have a voice in its control, but before they secure a share in that control, or predominance therein, they will have to fight for it, for the United States Government cannot afford to permit Europe to have any management in a waterway designed primarily for the use of the nations of this hemisphere, and it is not for the interest of Mexico that the revolutionists in Nicaragua should intrigue against a continental policy in Nicaragua."

"All nations may use the canal when it is completed, but that is a very different matter from allowing European Governments to place their agents in the Board of Administration of the canal. The Democratic party now in power in the United States Government is committed by its platform of principles to giving Government aid to the canal for the purpose of national defense, and of promotion of commerce between the States."

"Minister Guzman, who represented the late Government of President Saca at Washington, favors an American protectorate in Nicaragua, but it seems to us that the moral influence of the United States in Nicaragua is sufficient to maintain status quo. Americans should not mix themselves up in the stormy politics of Central America, but they will not permit successful revolutionists in Nicaragua to adopt a policy hostile not only to American, but Mexican interests. If the new Government in Nicaragua cancels the Canal Company's concession there will be serious trouble, and Saca may return to power."

MUST COMPLETE THE CANAL.

The New Nicaragua Government Will Insist Upon the Work Being Pushed.

MANAGUA (Nicaragua), June 10.—A high Government official told the *New York World* correspondent confidentially to-day that the new Government of Nicaragua will make no change in the canal concession, but it will insist that work on the canal shall be prosecuted more energetically than hitherto, and that it shall be pushed to early completion. Guarantees in this respect may be exacted from the company.

Congress will enact such laws, the same official declares, as will prevent the canal becoming, at any future time, the property of the United States, as it seems to be feared it will when once finished. It is believed that action of this kind will set at rest the rumors circulated by Europeans that the United States has designs upon Nicaragua.

"Brace Up"

Is a tantalizing allusion to those who at this season feel all tired out, weak, without appetite and discouraged. But the way in which Hood's Sarsaparilla builds up the tired frame and gives a good appetite is really wonderful. So we say, "Take Hood's and it will brace you up."

For a general family cathartic we confidently recommend Hood's Pills.

Aim at the Drake

And you are bound to hit some of the ducks. This is precisely the same with

Wampole's

Tasteless

Preparation

OF

Cod Liver Oil.

It aims to cure Consumption, Hits the Mark, too, and it most effectually breaks up Colds, Coughs, Hoarseness and all Throat and Lung troubles that cause this disease.

It is natural logic to conclude that if WAMPOLE'S PREPARATION OF COD LIVER OIL has power to prevent Consumption, it surely is able to cure these lesser emergencies.

This vigor-making, fat producing preparation is Absolutely Tasteless, in so far as Cod Liver Oil is concerned. All you notice is a delightful flavor of Wild Cherry and Anise.

But the purest Norwegian Cod Liver Oil is there all the same. It is a great blood enricher. Best of all it is a natural food that in its stomachic effects, actually assists its own assimilation.

In Pulmonary or Bronchial troubles it is unequalled. No one doubts the value of Cod Liver Oil, but not every one is able to take it.

WAMPOLE'S PREPARATION removes the nauseous objection and actually makes Cod Liver Oil palatable.
